Objective

Aspiring Software Developer with strong interest in Full-Stack Development, Cloud Computing, and DevOps. Experienced in building web applications using React, Node.js, and MongoDB with knowledge of containerization and CI/CD practices. Passionate about designing scalable systems, developing secure APIs, and deploying applications using modern cloud infrastructure.

Education

Lovely Professional University **Phagwara, Punjab**
Bachelor of Technology in Computer Science and Engineering, CGPA: 7.03 *2023 - Present*
Relevant Coursework: Data Structures and Algorithms, Operating Systems, Database Management Systems, Artificial Intelligence, Computer Networks, Software Engineering

Gyan Bharti Residential Complex **Bodhgaya, Bihar**
Senior Secondary School Certificate (12th Grade), Percentage: 74.6% *2022*
Key Subjects: Physics, Chemistry, Mathematics

DAV School **Gaya, Bihar**
Secondary School Certificate (10th Grade), Percentage: 73.4% *2020*

Technical Skills

Programming Languages: C, C++, Java, Python, JavaScript

Web Development: HTML, CSS, Bootstrap, Tailwind CSS, React.js, Node.js, Express.js

Databases: MySQL, MongoDB

Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, Ansible, Jenkins, CI/CD

Tools & Platforms: Git, GitHub, Linux, VMware, Shell Scripting, Jira, Networking

Projects

Project Title: *Static Website Hosting on AWS*
Description: Designed and deployed a highly available static website using Amazon S3 with integrated CDN for faster and secure global content delivery.
Technologies Used: AWS S3, CloudFront, SSL/TLS, Static Website Hosting, HTML, CSS.
Impact/Achievements: Improved website performance and security by enabling HTTPS and using CloudFront CDN for global distribution.

Project Title: Full-Stack Bookstore Application (Pustakly)
Description: A full-stack bookstore web application that allows users to browse, search, and manage books with authentication and CRUD functionality.
Technologies Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS
Impact/Achievements: Implemented secure authentication and RESTful APIs for managing books and users with a responsive user interface.
